

PHARMACIST AWARENESS MONTH

Check out all that your Remedy'sRx Pharmacist can do for you!

March may be Pharmacist Awareness Month, but these services are available to help you, your family, and friends to stay healthy all year round.

Medication Safety and Private Medication Review Sessions

Your Remedy'sRx Pharmacist would be pleased to go over your prescription and nonprescription medications to make sure there are no drug interactions. Better yet, book a personalized Medication Review session to cover any questions you may have about your medications, and to make sure you are getting the most benefit from them.

Quit Smoking Consultations

The Quit Smoking program is a series of consultations to help you prepare for and quit smoking. Each session is private, and gives you time with your Remedy'sRx Pharmacist to get information, resources and support for your healthy decision. Your Remedy'sRx Pharmacist can recommend products to curb cravings and reduce nicotine withdrawal. These private sessions and programs are covered by most provincial health plans.

Specialized and Managed Care Programs

Many Remedy'sRx Pharmacists are specialists in areas such as Diabetes, INR, Blood Pressure control, Cholesterol, COPD, Asthma, Allergies, Pediatrics, Geriatrics, Women's Health, Men's Health and Addictions, to name a few. Managed Care programs can help you better understand your condition and reach your target levels and health outcomes.

Custom Compounding

We make it so you can take it!

We make custom preparations for kids and people who find it difficult to swallow pills. We also make custom specialized dermatologic formulations, hormonal therapies, and pet medications.

MyHealth Presentations

Are you planning a health seminar? Ask your local Remedy'sRx Pharmacist about health and medication presentations for your community or service group.

We hope you enjoyed this month's eNewsletter, compliments of Remedy'sRx. Please see your Remedy'sRx Pharmacist for more information or to schedule a personalized Medication Review consultation. Private Pharmacist consultation sessions are covered by most provincial health plans.
